Dear Parent/Legal Guardian:

To support and enhance your child's learning and to protect the privacy of student data, the Erasmus+ In-Voice4Mpowerment Project Consortium suggests certain digital tools for use in the context of collaborative creative activities developed for the Project.

The digital tools/applications used in the online Platform are: Student-teacher forum, Miro, BandLab, platform share folder

These tools and services help students develop their creativity, as well as technology and digital citizenship skills, along with 21st Century skills. They also help teachers/choral leaders foster student communication and collaborative activities.

According to the General Data Protection Regulation (Regulation (EU) 2016/679) law, for children under 14 years old, we need to obtain verifiable parent/legal guardian consent before registration to the Project's collaborative Platform. Please return this form to your child's school to enable your child to use these tools.
